

PACE FINANCE

Your Money. Finally Coached.

The AI-first personal finance platform built for South Africans
transforming passive tracking into proactive wealth-building.

Your AI financial coach. Built for South Africa.

ZAR-Native

AI Coaching

SA Banking Ecosystem

Fintech SaaS

pace.finance · Johannesburg, South Africa · 2026

South Africans are flying blind.

Financial apps today are glorified spreadsheets. They record the past but never shape the future. For South Africans navigating uniquely complex finances, that gap is costing them dearly.

01

The Digital Receipt Trap

Apps show you what you spent. None tell you what to do next. No coaching, no strategy, no forward clarity on your money.

02

SA Complexity is Ignored

Multiple savings pots, vehicle finance, bonds and credit cards — and zero apps built around ZAR realities or South African retailers.

03

Manual Entry Kills Habits

Over 60% of budgeters quit within 30 days. Manual input is the number one reason. Friction destroys financial momentum before it starts.

04

The Advice Gap

Personal financial advisors cost thousands per session. Generic apps lack the local intelligence South Africans need to get ahead.

Pace Finance: Coach, not calculator.

Pace Finance is an AI-first personal finance platform designed natively for the South African ecosystem, turning every transaction into a personalised coaching opportunity.

1

Ask your coach, not a chart

Can I afford this Nandos run? How much faster can I clear my Standard Bank loan with R500 extra? Real answers, in seconds, built on your actual financial picture.

2

PDF to full insights in under 10 seconds

Drag and drop statement parsing for FNB, Nedbank, ABSA and Standard Bank. Zero manual entry. Full categorization applied automatically the moment you upload.

3

Transactions that actually do something

Mark a payment as a debt repayment and Pace Finance instantly updates your balance, recalculates your debt-free date and adjusts your entire coaching plan.

4

Built for ZAR, not USD

SA retailers pre-mapped. Local banking fees tracked. Section 11F retirement contributions identified automatically. No generic global templates applied to your life.

Six pillars. One platform.

CORE INTELLIGENCE

Elite AI Financial Coach

Context-aware coaching using your full financial picture. Debts, goals, bills and history. SA-specific answers powered by Gemini AI.

Gemini Powered

ONBOARDING

Zero-Friction Smart Import

Native parsing for FNB, ABSA, Nedbank and Standard Bank. Auto-categorizes every transaction with no user input required.

FNB ABSA Nedbank STD

CREDIT STRATEGY

Actionable Credit Hub

Simulate how repayments impact your credit score. Identify which accounts to pay first for maximum credit growth.

Score Simulation

SA-SPECIFIC

Wealth Leak Detection

Automatic Section 11F tax tracking, ZAR cost-of-living benchmarks and SA banking fee monitoring built in.

Tax Optimised

AUTOMATION

Automatic Impact Engine

Every transaction ripples across your full financial picture. Debt balances, savings goals and net worth update in real-time.

Live Sync

PLANNING

Proactive Bill Manager

30-day cash flow visibility. Subscription leak detection. Never be caught off-guard by a debit order again.

30-Day Horizon

A massive, underserved market.

R600B+

SA Fintech TAM

personal finance apps
growing 18% YoY

Existing players such as 22Seven and Mint are generic, globally designed and increasingly abandoned. No South African fintech has built an AI-coaching layer tailored to ZAR complexity.

Why now?

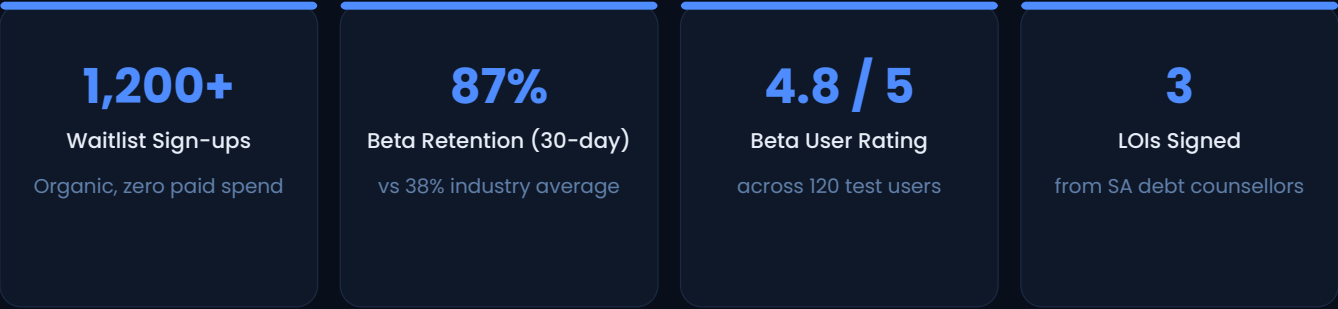

AI cost has collapsed. SA smartphone penetration exceeds 60%. Bank PDF formats are fully standardised. Every condition for rapid growth is now in place.

Our moat

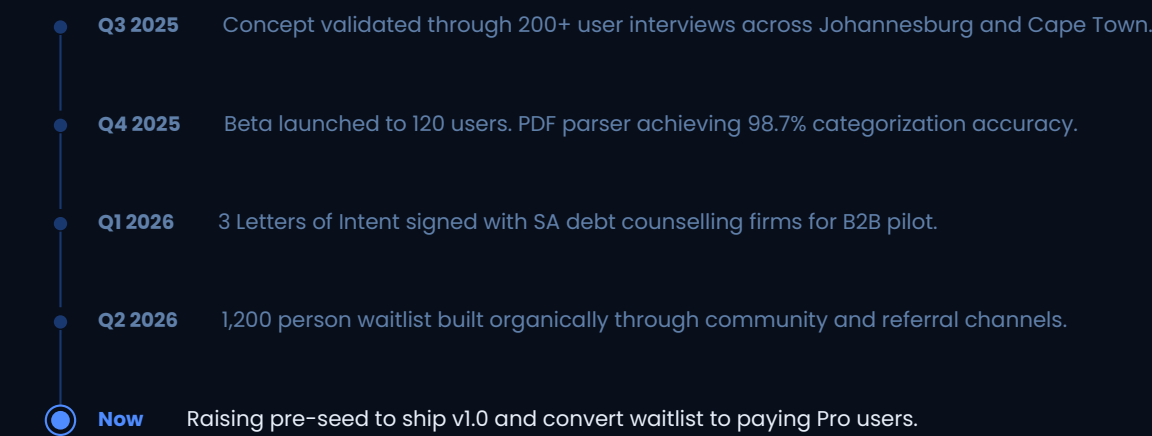

SA retailer mapping, bank parser engine and ZAR-trained coaching context create a local data advantage that global apps simply cannot replicate quickly.

Early signals. Real momentum.

Pace Finance is pre-revenue but post-validation. We have spent six months deep in community research, beta testing and partnership conversations. Here is what we have built so far.

Key Milestones

We don't just compete. We outclass.

Every existing solution leaves South Africans underserved. Pace Finance is the only platform combining AI coaching, ZAR-native intelligence and debt-centric design in one product.

Feature	22Seven	Mint	Bank Apps	Pace Finance
AI Financial Coaching				
SA Bank PDF Parsing	~			
ZAR / Local Retailer Mapping	~			
Debt Snowball and Avalanche				
Credit Score Simulator				
Section 11F Tax Tracking				
Proactive Insights (Push)				
B2B / Lender Integration				

Local First

Pre-mapped for 500+ SA retailers and all major SA banks from day one.

AI Native

Not a chatbot bolted on. Coaching is the core product, not a feature.

Debt-Centric

The only app built around debt eradication as a primary user goal.

The numbers behind the vision.

Conservative projections based on community-led CAC assumptions, 8% monthly waitlist conversion and a freemium-to-Pro upgrade rate of 22% by Month 18.

Year 1	Year 2	Year 3

Life before Pace Finance. Life after.

This is not just an app upgrade. For millions of South Africans, Pace Finance is the difference between financial anxiety and financial clarity.

BEFORE PACE FINANCE

AFTER PACE FINANCE

Checking your finances

Without Pace Finance

Open 4 different banking apps. Export statements manually. Build a spreadsheet. Spend 45 minutes to understand last month.

With Pace Finance

Ask Pace Finance: How did I do last month? Get a full breakdown with insights and your next recommended action in 10 seconds.

Tackling debt

Without Pace Finance

Guess which debt to pay first. No visibility on interest impact. No plan. Just anxiety and minimum payments.

With Pace Finance

Pace Finance maps all your debts, models the avalanche and snowball strategies and tells you exactly which to pay to save the most interest.

Making a purchase decision

Without Pace Finance

Gut feel. Maybe check your bank balance. Impulse buy. Regret later when a debit order bounces.

With Pace Finance

Ask your coach. Pace Finance checks your 30-day outlook, upcoming bills and savings goals before giving you a clear yes or no.

Tax season

Without Pace Finance

Scramble for 12 months of statements. Miss Section 11F deductions worth thousands. Pay more than you should.

With Pace Finance

Pace Finance has tracked every deductible contribution all year. Your tax summary is ready before your accountant asks.

Contact Sales

Custom B2B Revenue

Community-led. Influencer-amplified. Viral by design.

1

Stage 1: Community Seeding

Launch into SA personal finance communities including FatWallet and Reddit r/PersonalFinanceZA. Share real PDF to insight demos. Organic trust builds the first 1,000 users at near-zero cost.

2

Stage 2: Influencer Amplification

Partner with SA finance creators on YouTube, TikTok and Instagram. Showcase the 10-second bank statement moment. Affiliate commissions tied to Pro conversions, not impressions.

3

Stage 3: Referral Flywheel

Every Pro user receives a personal referral link. A successful conversion earns one free month. Each user introduces Pace Finance to a new social circle. CAC compounds downward over time.

4

Stage 4: B2B Partnerships

Partner with debt counsellors, credit providers and HR wellness programmes. One enterprise deal delivers hundreds of captive users at near-zero CAC.

From coaching to full financial OS.

Long-term vision:

Pace Finance becomes the financial operating system for every South African household, from first salary to full retirement.

Built by people who understand the problem.

Pace Finance is built by a focused team of South African product, engineering and finance professionals who have personally lived the gap between financial apps and real financial progress.

CEO

Founder and Visionary

Product strategy, investor relations and go-to-market. Previously led growth at a South African fintech scaling to 200K users.

CTO

Head of Engineering

AI systems and platform architecture. Built production ML pipelines and bank-grade data pipelines for SA financial institutions.

CPO

Head of Product

UX and product design. Obsessed with making complex financial concepts accessible to every South African, regardless of background.

CFO

Head of Finance

Chartered accountant with deep SA tax law expertise. Architect of the Section 11F tracking engine and debt optimisation models.

Advisory Board:

Senior bankers, tax attorneys and debt counsellors from across the South African financial sector.

THE ASK

Join us in coaching 22 million South Africans.

We are raising a pre-seed round to accelerate product development, bank parser expansion and go-to-market execution. Every South African deserves a financial coach, not just the privileged few.
